YOUR EMAIL INSTALLATION GUIDE

Installing your email signature in

INKY MAIL APP FOR ANDROID

215

Please have your provided HTML file available and ready to install. Then simply follow the steps below to have your signature set-up in Inky Mail App for Android within minutes.

STEP ONE

Open your Inky Mail App and scroll down to Settings in your menu. Select General Settings then tap Default Signature.

n	ie	+	← Settings	+ ← General Settings
	Outbox		General Settings	Message Display
			Configure message download settings, signature, and security.	Remote Content Display remote content in the message without asking
count	ts		Account Settings Configure email account color, icon, password, and signature.	Download Limit How many months back to download
3	Paraferatopatoreca on	•	the spin strap down car on	Wifi Only Download Download older messages only on wifi
sc				Notifications
Ð	Add Account			Disable Notifications Prevent system notifications for new mail
>	Settings1			Disable Sounds Don't play notification sounds when new mail arrives
9	Help			Composer
6	Tell Your Friends			Pefault Signature You can set a signature for each Separately in A Settings -> Identity
b	Send Logs			Security
Ð	Clear Saved Credentials			Change Password

 $\mathbf{X}\mathbf{X}$

STEP TWO

You will see a window pop up that says Edit Default Signature and has the text **Sent** with Inky. You want to replace that text with your own email signature.

Switch out of Inky for a moment and open up your provided email signature file in your mobile web browser app.

STEP THREE

3

4

Tap on some text in your email signature that isn't linked and hold down. A few options should pop up. Press **Select All**, then **Copy**.

STEP FOUR

Switch back to **Inky Mail App**, delete the **Sent with Inky** text, then hold your finger down in the text box. A paste option should show up, press this and you will see your signature is now inserted. **Save** your changes.

STEP FIVE

Go back to your main menu and compose a new email. You will see your email signature is now inserted at the bottom of your body text.

All done! Your email signature is now installed within Inky Mail App for Android!
