Installing your email signature in

YAHOO MAIL

STEP FOUR

Switch out of Yahoo! Mail for a moment, and open the email signature file you were provided in your web browser. Press **Ctrl + A** to highlight the signature, then **Ctrl + C** to copy it.

Change back to Yahoo! Mail and scroll down to the signature section in your settings. Tick the **Append a signature to the emails you send** checkbox, then paste your email signature in the window below by pressing **Ctrl + V**.

STEP FIVE

Save your changes then compose a new email. You will now see your email signature automatically inserts when composing new emails and replying to others.

All done! Your email signature is now installed within Yahoo Mail!
